

SLIM Armchair

SLIM Dining Chair

SLIM Barstool

### FRAME

Material: steel rod

Production: welding, grinding

Finishing: Epoxy coating, powder coated (TIGER)

Special performances:

- Strong and durable
- Resistant to chlorine and salt water

### ROPE

The ropes used for the Slim chairs are made from polyester fiber. Polyester is widely used for boat lines and for sail material because it combines great strength and durability. To obtain a higher comfort level the ropes have an EVA foam core.

### CAPS / SCREWS

Material: PP (polypropylene), injection moulded

Screws: Stainless steel

### SPECIAL PERFORMANCES

- UV and weather resistant
- Water (salt and chlorine) and moisture resistant
- Non toxic and environmental friendly
- Strong and durable
- Recyclable
- Easy maintenance

### PACKAGING

These items are carefully wrapped in bubble and packed by 2 pieces in 1 box (chairs) or by 1 piece in 1 box (barstool).

Note: the Armchair and Dining Chair are stackable.
